

# Pyrolysis

## Hospitality rider and info sheet Pyrolysis

First of all, thanks for booking Pyrolysis! We understand that each show is different and not all venues/festivals/people can provide the same thing. Of course the things listed here are not demands, but just some preferences for things we like when we come to play.

### **Travel party:**

The travel party consists of FIVE musicians and at least ONE extra crew member. We will contact the venue beforehand if we want to bring additional crew members (usually just one or two extra).

### **Drinks:**

- Before the show: we like water, tea, coffee, and soft drinks (COLA)! Some band members love sugary soft drinks for more energy during the performance: both regular and diet coke are preferred.
- We LOVE bottles of water on the stage.
- We're not heavy consumers of alcohol, although we do like some alcoholic drinks for after the show. Whisky is our favourite, but obviously beer is also much appreciated.

### **Snacks:**

We like sandwiches and fresh fruits!

### **Meal:**

In case of an included dinner: a nice hot meal for each person in the travel party! We like our meals to be full of spicy vegetables. Our percussionist can always use a second portion or he might get a little cranky ;) there are no allergies in the band, but we all prefer vegetarian food.

### **Varia:**

- A backstage area for dressing/pre-gig preparation/post-gig cooldown is always nice to have, although we're not afraid to show the audience our undies.
- A table for merchandise, on a visible spot to the audience, in the same room as where the concert takes place.
