

Extra Info

Pyrolysis is an acoustic folk band. We bring our own microphones for accordion (wireless), violin (wireless), bodhran, and a headset for Stan. We also try to bring a small (acoustic) guitar-amp and our own bass-amp. Our percussion set only contains a cajon (used as a kick) and a bodhran. Lead vocals change per song and are shared with voc 1, voc 2 and voc 3. The volume of the monitors should not be too loud. In fact, nothing should be loud. The cajon is basically just a wooden box, so a lot of EQ is needed on that one! It would be nice to have 1 extra DI and 1 extra XLR cable lying around for any guest musicians. We bring a backdrop banner (3x2m)! As we're barefooted on stage, we love carpets! Let us know if that's not possible; we can bring our own.
